EXTERIOR SURFACES:

Our Quantum® Ceramic Coating utilizes the latest in Nano-Ceramic technology to strengthen, enhance and protect commercial paint by fusing to the surface with a durable covalent bond. The protective shield created by this exclusive coating provides the ultimate protection against damage due to environmental hazards and surface contaminants.

SUPERIOR RESISTANCE FROM:

- UV Fading
- Acid Rain
- Bird Droppings
- Industrial Fallout
- Bug Damage
- Road Salt
- Tree Sap
- Surface Contaminants

HYDROPHOBIC COATING:

Quantum Ceramic Coating contains a unique molecular coupling agent that chemically bonds to clear coat surfaces. Fusing at the molecular level, it creates a hydrophobic coating which delivers an amazing gloss and provides the best protection against the most common causes of damage:

- Oxidation
- Ultraviolet Light
- Dirt & Grime
- Chemical Contaminants

HOW IT WORKS:

Apex Commercial Appearance Protection Products are Applied to the Exterior and Interior Surfaces of Your Vehicle to Keep it Looking New and Preserve the Vehicles' Resale Value.

ADD DURABILITY TO THE INTERIOR AND EXTERIOR OF YOUR VEHICLE FOR YEARS TO COME WITH APEX COMMERCIAL APPEARANCE PROTECTION!

INTERIOR SURFACES:

LEATHER & VINYL PROTECTANT:

Quantum® Leather Protectant is a penetrating treatment designed to condition and protect the natural quality of the leather and vinyl.

FOR LEATHER, VINYL & TRIM:

- Protects seats from drying/premature aging
- Protects door panels and dashboard
- Protects against oil AND water-based stains

FABRIC & CARPET PROTECTANT:

Quantum® Fabric Protectant is formulated to protect the original quality of your vehicles' fabric and carpet. The specially formulated polymer penetrates and coats each fiber with an invisible barrier of protection.

SPECIFICALLY FORMULATED TO:

- Repel liquids and block stains
- Delays absorption allowing for easier clean-up
- Bond to individual fibers without altering texture, scent or color
- Protect fabrics including cloth, suede, canvas and polyester
- Maintain breathability of fabrics
- Provide UV and fade protection
